Experience

Freelance / Independent Full-stack JS/TS Developer Warsaw, Poland, Remote
Full-stack Developer June 2025 – Present
Achievements and responsibilities:

- Developing and delivering full-stack web solutions using TypeScript, React, Next.js, and Node.js.
- Integrated AI-assisted development workflows (e.g., Cursor, Claude) to accelerate delivery, automate repetitive tasks, and improve code quality.
- Worked with AWS services such as Lambda, SQS, SNS, and SES for background jobs, notifications, and scalable integrations.

Tech Stack: TypeScript, React, Next.js, Node.js, NestJS, PostgreSQL, MongoDB, REST APIs, AWS (Lambda, SQS, SNS, SES)

Cloudguard AI UK, Remote
Full-stack Developer April 2023 – June 2025
Achievements and responsibilities:

- Designed a scalable frontend architecture with React and Next.js, improving application stability and performance.
- Implemented server-side rendering (SSR) and optimised client-side rendering for fast load times and responsive UI.
- Contributed to AI-related features and integrations, collaborating on data-driven and automation-heavy workflows.

Tech Stack: TypeScript, React, Next, Zustand, Mantine, Node JS, Express, Nest, PostgresSQL, MongoDB, Jest, Testing Library, Azure Services, Azure DevOps

Vention Warsaw, Poland
Full-stack Developer April 2021 – April 2023
Achievements and responsibilities:

- Built a reusable UI component library, ensuring consistency across multiple production applications.
- Led frontend development with React and Apollo Client, enabling efficient real-time data fetching.
- Worked with AWS services and backend integrations to support scalable data flows and real-time features.

Tech Stack: TypeScript, Next, React, Redux, React Query, Apollo Client, Styled Components, Material UI, Node JS, Express, Nest, PostgresSQL, MongoDB, Jest, Testing Library, Jira, AWS, Bitbucket

Andersen Lab Minsk, Belarus
Front-end Developer August 2019 – March 2021
Achievements and responsibilities:

- Developed and maintained reusable UI components with React and SCSS, ensuring consistent branding and responsiveness.
- Collaborated with UX/UI designers to convert Figma designs into pixel-perfect frontend implementations.
- Integrated RESTful APIs with backend teams, ensuring clean and predictable data contracts.

Tech Stack: JavaScript, React, Redux, Material UI, CSS preprocessors, Node JS, PostgresSQL, MongoDB, Jest, Jira, GitLab

Education

Quantic School of Business and Technology Washington, USA (remote)
Master of Science in Software Engineering 2026
Belarusian State University Minsk, Belarus
Bachelor's degree. Medical and Pharmaceutical Chemistry 2016
